

Jacksonville Daily Journal

JACKSONVILLE, ILLINOIS, SATURDAY MORNING, MARCH 10, 1906.

BLOODY BATTLE WITH MOROS

IN WHICH 600 NATIVES ARE KILLED.

Fifteen American Soldiers Lose Their Lives in Storming Stronghold of Moros—Bravery of Americans Displayed.

Manila, March 9.—An important action between American forces and hostile Moros has taken place near Jolo.

Fifteen enlisted men were killed, a commissioned officer wounded, four enlisted men wounded and the naval contingent operating with the military sustained thirty-two casualties.

The Moros lost 600 men killed.

Maj. Gen. Leonard Wood, commander of the division of the Philippines, reports as follows from Jolo:

"Sever action between troops, a naval detachment and the constabulary and hostile Moros has taken place at Mount Dajo, near Jolo. The engagement opened during the afternoon of March 6th and ended on the morning of the 8th.

"The action involved the capture of Mount Dajo and Lave Con, 2,108 feet high, with a crater at its summit extremely steep. The last 100 feet were at an angle of 90 degrees and there were fifty perpendicular ridges covered with a growth of timber and strongly fortified, defended by an invisible force of Moros.

"The army casualties were fifteen enlisted men killed, and one commissioned officer and four enlisted men wounded. The naval casualties number thirty-two. Ensign H. D. Cooke, Jr., and Coxswain Gilmore were severely wounded.

"The constabulary casualties were Capt. John R. White, wounded severely, three enlisted men killed, and thirteen wounded. Capt. Tyke Rivers, Lieutenant Gordon and Lieut. Wyle T. Conway were slightly wounded.

"Col. Joseph W. Duncan, of the Sixth Infantry, directed operations. All defenders of the Moro stronghold were killed. Six hundred bodies were found on the field.

"The action resulted in the extinction of a band of outlaws who, recognizing no chief had been raiding friendly Moros and, owing to their defiance of the American authorities, had stirred up a dangerous condition of affairs."

CABLE BROKEN.

Manila, March 10.—The cable between Jolo and Mindanao is broken and there is only a launch service between the islands. As a result the details of the recent battle on Mount Dajo are not available. Apparently there will be no more fighting on Mindanao. Federal troops and constabulary are pursuing the hostile Moros and probably some unimportant engagements will follow.

Advices at hand show that Major General Wood directed Colonel Duncan to attack the Moros in the crater and capture or kill them. This was accomplished after repeated demands to surrender. Six hundred Moros were killed. It is believed no prisoners were taken.

The attack was made under the most hazardous circumstances, starting early in the afternoon of March 6th, the assailants climbed 2,100 feet up a lava cone, the thickly wooded ridges of which furnished the only foothold. The last 600 feet of the ascent was at an angle of 90 degrees and the last fifty feet almost perpendicular. At the top were 600 fanatical Moros armed with rifles and knives and supported by native artillery. The fortified crater was almost impenetrable and seemingly inaccessible. At the word of command the troops rushed into the crater and a hand to hand encounter followed.

INTEREST IN BATTLE.

Washington, March 9.—Not because of casualties among the American forces engaged, though they were more numerous than in any battle in the Philippines for several years past; but because of the extraordinarily large number of natives killed, news of the battle of Mount Dajo was received at the war department, and the navy department as well, for blue jackets were in the thick of the fighting, with intense interest.

The first authentic news of the battle came through the Associated Press reports, though at the same time cipher experts of the war department were engaged in trying to unravel a long report which came direct from Manila by cable. This message was from Colonel Andrews, military secretary at the army headquarters in Manila, who had received his data by an inter-island cable from Zamboanga, where the commander in chief of the Philippine division, Maj. Gen. Leonard Wood happened to be. Secretary Taft was at the cabinet meeting when the official cablegram was finally deciphered and a copy of it was sent at once to the executive offices, and the president and members of the cabinet listened with the keenest interest to its reading by Taft. After his return to the war department Secretary Taft, commenting upon the engagement, said:

"General Wood appears to have been there by accident, or rather without any idea of what was going to happen. I have a cablegram from his saying there were some matters calling him into the southern islands, but he would not be out of reach of the cable and I suppose when

NAVAL TALK BY BONAPARTE

ADDRESS AT BANQUET IN CHICAGO.

Tells of Progress Made by United States in Past Forty Years in Building a Navy—War is Always Possible.

Chicago, March 9.—"Preparation for modern naval warfare must be the work of peace," was the point made by Secretary of the Navy Bonaparte, who was the guest of honor at a banquet given here to night by the Swedish-American Republican club. Secretary Bonaparte told the banqueters of the progress made by the United States for the past forty years in building a navy. He urged the necessity of keeping the navy abreast of the times and ready at a moment's notice to do its work and do it well. This will cost money and a good deal of it. "While human nature and human society remain what they are," he said, "war will be always possible and sometimes unavoidable, and that to preserve peace we should be, and be known to be, ever ready at a moment's notice to meet an appeal to arms."

"To trust to 'luck' as a safeguard against a terrible calamity in the face of experience and common sense, is perhaps more folly; but when unheeded peril threatens the nation's safety and honor, the happiness of our people and our usefulness to mankind, this folly reaches the dignity of crime. Happily for our country, such men are few and of little credit in our midst."

"The American people know the need of a navy and of such a navy as such a people should have. It is ready to pay what must be paid to get and keep one; and I venture to say emphatically that an enlightened and patriotic public opinion will cheerfully and even gladly sustain the legislative grants of our government in making that liberal and far-seeing provision for the navy's need and growth which the navy expects with confidence."

CORBIN'S VIEWS.

San Francisco, March 9.—Major General Corbin, recently in command of the division of the Philippines, read with much interest the Associated Press news of the fight on the island of Jolo. He said: "This encounter has no bearing on the Philippine situation. The Moros are religious fanatics and are not amenable to the influences of other people. They owe no allegiance except to their Mohammedan faith, and are liable to cause trouble at any time. Their acts have no more relation to the conduct of the Philippines than the Apache outbreaks in former days in Arizona with the situation in other states and territories. No man can tell what the Moros are going to do. They are just as likely to fight among themselves as to attack others."

ENDS LIFE IN FIRE

Member of Hanish Cult Burns Himself to Death.

Chicago, March 9.—Miss Madie Smith died yesterday in fire—the element she had worshiped in life. A follower of Otoman Zar Adusht Hanish, high priest of the Fire Worshipers, Miss Smith became mentally irresponsible and yesterday committed suicide by setting fire to her clothing. Her death occurred in the basement of her home, 4229 Greenwood avenue.

Miss Smith's mind had been affected for some time. Her aged mother and her sister, Mrs. Lillian Strong, told her that she ought to leave Chicago for a rest. She became more despondent and a few days ago was found wandering near the lake by Charles Odell, the Illinois Central agent at the Forty-third street station.

A watch was set upon her by her relatives. Yesterday she got her mother to leave the house for an hour. Then she went to a grocery in Forty-third street and bought half a gallon of kerosene.

Returning, she went to the basement, poured the oil upon her clothing and set fire to it. The smoke poured upward through a coal hole in the sidewalk and Miss Smith's screams of agony were heard in the street. G. M. Waterman and his wife and Dr. W. P. McCracken, neighbors, rushed into the Smith home. They found Miss Smith wrapped in flames. Before they could extinguish the fire the woman was dead.

DISCRIMINATIONS

Joint Resolution for Investigation Amended.

Washington, March 9.—Representative Townsend introduced a joint resolution to day to amend the resolution approved on March 7th for an investigation of railway discriminations and monopolies by giving the interstate commerce commission full power to subpoena witnesses and compel production of documentary evidence. It also makes an appropriation of \$50,000 to conduct the investigation.

Gillespie, of Texas, also introduced a bill appropriating \$100,000 for the same investigation. It provides that any person testifying in such investigation shall not be prosecuted for any cause about which he may testify. The bill also provides that the commission shall accept reports of other departments of government on subjects investigated by them in case the commission regards the investigations as thorough. The resolution sought to be amended is that which the president criticized in a recent message to congress.

THE PACKERS' CASE.

Chicago, March 9.—The government to day rested its case in the packers' hearing on their pleas for immunity. No announcement was made by attorneys for the packers as to whether they will introduce any evidence in rebuttal, but it is believed by the government they will not. Arguments are expected to commence when court convenes Monday.

NAVAL TALK BY BONAPARTE

ADDRESS AT BANQUET IN CHICAGO.

Tells of Progress Made by United States in Past Forty Years in Building a Navy—War is Always Possible.

Chicago, March 9.—"Preparation for modern naval warfare must be the work of peace," was the point made by Secretary of the Navy Bonaparte, who was the guest of honor at a banquet given here to night by the Swedish-American Republican club. Secretary Bonaparte told the banqueters of the progress made by the United States for the past forty years in building a navy. He urged the necessity of keeping the navy abreast of the times and ready at a moment's notice to do its work and do it well. This will cost money and a good deal of it. "While human nature and human society remain what they are," he said, "war will be always possible and sometimes unavoidable, and that to preserve peace we should be, and be known to be, ever ready at a moment's notice to meet an appeal to arms."

"To trust to 'luck' as a safeguard against a terrible calamity in the face of experience and common sense, is perhaps more folly; but when unheeded peril threatens the nation's safety and honor, the happiness of our people and our usefulness to mankind, this folly reaches the dignity of crime. Happily for our country, such men are few and of little credit in our midst."

"The American people know the need of a navy and of such a navy as such a people should have. CORBIN'S VIEWS.

San Francisco, March 9.—Major General Corbin, recently in command of the division of the Philippines, read with much interest the Associated Press news of the fight on the island of Jolo. He said: "This encounter has no bearing on the Philippine situation. The Moros are religious fanatics and are not amenable to the influences of other people. They owe no allegiance except to their Mohammedan faith, and are liable to cause trouble at any time. Their acts have no more relation to the conduct of the Philippines than the Apache outbreaks in former days in Arizona with the situation in other states and territories. No man can tell what the Moros are going to do. They are just as likely to fight among themselves as to attack others."

INDICTMENTS READ

Against Officials of Western Federation of Miners for Assassination of Stuenenburger.

Boise, Idaho, March 9.—The Western Federation of Miners' officials to day heard the indictments against them read in court. Moyer, Haywood, Pettibone and Jack Shinkins are indicted jointly, being charged with having murdered Frank Stuenenburger. There is in the indictment no mention of the western federation nor any charge of conspiracy. So far as the indictment shows, each is accused of having personally participated in the crime charged.

The indictment contains three counts, all of a similar nature. The list of charges is that the accused men placed a deadly box or bomb filled with giant powder, caps, sulphuric acid and other explosives at the gate in front of Frank Stuenenburger's residence with the intent of killing him. One count charges the actual murdering of Stuenenburger by causing a bomb to explode as Stuenenburger was entering his yard.

At the conclusion of the proceedings before Judge Smith the prisoners were brought back to Boise and taken before the state supreme court, where arguments were heard this afternoon on the habeas corpus proceedings begun in their behalf several days ago.

COMPROMISE NEAR

Points at Issue in Moroccan Conference May be Settled To Day.

Algiers, Spain, March 9.—Expressions by French and German delegates this evening give the impression that a compromise on points hitherto deadlocked may be reached at to-morrow's sitting of the Moroccan conference. The German delegates have now moved from the hitherto rigid standpoint which they have maintained relative to the Moroccan bank, declaring their readiness to grant

ARIZONA AND NEW MEXICO OUT

DEPRIVED OF STATEHOOD BY SENATE.

Bill Passed Admitting Oklahoma and Indian Territories as One State—House Proceedings—Other News.

Washington, March 9.—To day at 5:30 p. m. the senate passed the bill for the admission of a new state to be called Oklahoma and Indian territories. It was the house joint statehood bill with all provisions relating to Arizona and New Mexico stricken out. The motion to strike out was made by Burrows and it was carried by 77 to 36.

Immediately after disposal of the statehood bill the house railroad rate bill was made unfinished business, but as the senate adjourned over Saturday and Sunday, actual formal consideration of the measure will not begin until Monday.

The vote on the statehood bill came as the climax of a day devoted exclusively to that bill. Most of the time was given to discussion, but voting on the bill and amendments consumed an hour and a half. The speech making excited comparatively little interest, but there was pronounced excitement throughout the voting period and it culminated with the success of a motion to eliminate Arizona and New Mexico, which was announced after the second vote on that proposition.

The test vote, upon which opponents of joint statehood showed their greatest strength, was on the Foraker amendment which provided that Arizona and New Mexico should have an opportunity to vote separately on the proposition of a joint statehood. This was carried, 42 to 29. Previous to this action the provision for increased appropriations in the bill was stricken out in order to afford an opportunity for a motion to concur in senate amendments when the bill is sent to the house.

Speech making began at 11 o'clock and was under the ten minute rule after the first hour. About a dozen speeches were made, but the notable ones were made by Doherty and Burrows in denunciation of polygamy in Arizona and New Mexico. Doherty secured the incorporation of an anti-polygamy amendment, but the elimination of Arizona from the measure detracted somewhat from the importance of the accomplishment.

Just before the voting began, Cullom, who has been absent from the senate on account of illness during the greater part of the session, entered the chamber. He was warmly welcomed by his colleagues. As amended by the senate the bill provides for the creation of a state of Oklahoma and Indian territories upon the adoption of a constitution. The state is allowed the usual quota of executive, judicial and legislative officers, two United States senators and five members of the national house of representatives. A constitutional convention with 110 members, fifty-five of whom are to be chosen by each of the territories, comprising the state, is provided for, and all male citizens or male Indians 21 years of age are made eligible to membership in it. There is an especial provision protecting Indians in their rights and continuing the prerogative of the national government to control their affairs. The sale of intoxicating liquors in what is now the Indian Territory is prohibited for twenty-one years and longer unless the constitution is changed. Sections 16 and 36 of each township of land in Oklahoma are set aside for the benefit of the common school system; as is also 5 per cent of the proceeds of the sale of public lands. There is an appropriation of \$5,000,000 from the national treasury for the benefit of the schools. The provision is for the support of higher education and charitable institutions. Two districts for United States courts, one in Oklahoma and the other in the Indian Territory, are provided for. Guthrie is made the temporary seat of government, but the house provision continuing it in that capacity until 1915 was eliminated.

HOUSE.

The house to day passed 408 private pension bills and devoted three hours to consideration of the bill providing a uniform system of naturalization the chief features of which require an alien to write either his own or the English language and to speak and read the latter and to declare his intention to reside permanently in the United States before he can become an American citizen. The bill is to be continuing order when appropriation bills are not under consideration. It met many objections and will prove a fruitful topic of discussion. Honorary of Colorado is in charge of the measure and occupied most of the time explaining its provisions and answering objections.

CAPITAL NOTES.

The house committee on election of president, vice president and representatives in congress has agreed to make a favorable report on the bill by Representative Norris, of Nebraska, providing for extending the term of members of congress to four years, and for the election of senators by popular vote.

A motion for reconsideration of the

CHANCE FOR AGREEMENT.

Paris, March 9.—The official view is that the situation at Algiers is much improved with chances now strongly toward agreement. At the same time it is maintained an agreement must be on the basis of Franco-Spanish police without subjecting it to international control. The question therefore appears to turn upon what guarantees Germany will exact for her acceptance of the Franco-Spanish policy.

COAL OPERATORS

Decide to Stand as a Body—Story of President's Intervention.

Pittsburg, Pa., March 9.—The coal operators of the Pittsburg district to day decided to stand as a body when they go to the general conference at Indianapolis with the operators of Ohio, Indiana and Illinois. During the meeting to day it is said that George B. Magoon, vice president and general manager of the Pittsburg & Westmoreland Coal company, one of the largest of the independent coal companies, demanded that Chairman Robbins explain how President Roosevelt came to enlist in the pending controversy between the miners and operators. Robbins said the matter was accomplished as the result of a conference with John Mitchell, while they were in New York. The situation was serious and both agreed it was necessary to get another meeting of the interstate conference. Mitchell called up the president on the telephone and after explaining the status of the matter to him, suggested he write a letter to Robbins urging that a new conference be called. He also asked the president to talk the matter over with Robbins and, without changing the call, Robbins went on the line and arranged for the letter to be written which would be the basis of the second call of the general conference. This was on Feb. 21st, and the following day Robbins received a letter from President Roosevelt, and the call for another conference followed. This, Robbins explained, was the story of the president's intervention.

The sentiment among the operators to day was against settlement for more than a year.

EMPEROR'S TALKS.

Berlin, March 9.—The emperor has expressed to President Elliot of Harvard university, through the German ambassador at Washington, his pleasure and sincere thanks for the "Emperor William Fund," amounting to \$3,000,000 presented to the Harvard German museum by friends of Germany in America, in remembrance of his majesty's silver wedding.

ACCIDENTALLY KILLED.

Greensburg, Pa., March 9.—While adjusting a target at a prize shoot for dressed beef at the farm of Robert Shuy, three miles from Greensburg to day, Edward Hogan was shot through the head by L. P. Wentzell, one of the contestants. Hogan died two hours later. The shooting was accidental and Wentzell is prostrated.

MUST PAY FINE

Writ Asked for Officials of Chicago Typographical Union Refused.

Chicago, March 9.—Judge Walker to day denied the writ of habeas corpus asked in behalf of Edwin H. Wright and Edward Bassett, respectively president and organizer of the Chicago Typographical union. The men were some time ago sentenced by Judge Holdom to thirty days in jail and to pay a fine of \$100 for contempt of court. In refusing the writ, Judge Walker held that the thirty days which have intervened since the men were committed to jail by Judge Holdom constituted imprisonment, and therefore that the sentence of each had been served. The fines, however, he declared, must be paid or served out in jail.

BANK CLEARINGS.

New York, March 9.—The total bank clearings compiled by Bradstreet for the principal cities in the United States for the past week were \$3,239,542, an increase of 18.2 per cent, compared with the corresponding period last year.

ROTTERS FOUND GUILTY.

Springfield, Ohio, March 9.—The jury in the riot cases found eight young men guilty of rioting this afternoon. Lenency was recommended and the court was asked not to impose workhouse sentences.

He also asked the president to talk the matter over with Robbins and, without changing the call, Robbins went on the line and arranged for the letter to be written which would be the basis of the second call of the general conference. This was on Feb. 21st, and the following day Robbins received a letter from President Roosevelt, and the call for another conference followed. This, Robbins explained, was the story of the president's intervention.

The sentiment among the operators to day was against settlement for more than a year.

EMPEROR'S TALKS.

Berlin, March 9.—The emperor has expressed to President Elliot of Harvard university, through the German ambassador at Washington, his pleasure and sincere thanks for the "Emperor William Fund," amounting to \$3,000,000 presented to the Harvard German museum by friends of Germany in America, in remembrance of his majesty

There is but One Real Soda Cracker because there is but one that comes to you just as it comes from the oven.

Others lose their value by being exposed to the air, absorbing moisture and collecting dust.

The real soda cracker is Uneeda Biscuit kept fresh and clean by the protecting package

NATIONAL BISCUIT COMPANY.

Beware of the Physic You Take!

A physic often does more harm than good. It is not so much the physic, though, as it is the class of physic you take.

Most preparations sold as laxatives and cathartics are dangerous. They do accomplish what they are advertised to do—move the bowels—but they entirely upset the stomach, and often produce complications.

These preparations in the form of tablets and pills, usually gripe, cause nausea, and once you begin taking them a dangerous "physic habit" is formed. The bowels soon become unable to perform their functions without the unnatural aid of the "tablet," just like some people find it impossible to sleep without taking "sleeping powders."

A safe remedy for all stomach disorders is

Dr. Caldwell's Syrup Pepsin

It never creates a "habit." It does not operate on the stomach and bowels as most remedies do. The pepsin contained in it is a great digester. It quickly relieves the distress of indigestion, without any of the dangers which come with the use of soda.

As a laxative it produces quick and pleasant results. No stomach is too weak to be benefited by it; no condition is beyond its power to cure. All druggists sell Dr. Caldwell's Syrup Pepsin at 50c and \$1.00.

Your money back if it doesn't benefit you.

BOUGHT RAILROAD. Pittsburgh, Pa., March 8.—The Post announces the sale of the Pittsburgh & Lake Erie railroad to the Pennsylvania and Vanderbilt interests. The amount involved is not less than \$2,500,000. The transaction was made to reduce competition in traffic to Lake ports.

Schwab arrived in Kansas City from the west this afternoon. To the Associated Press he said he was only slightly indisposed, the result of three weeks of almost constant railroad traveling. He was in the city for the night. The trip was continued east to night.

SCHWAB IN GOOD HEALTH. Kansas City, Mo., March 8.—Charles M. Schwab, who was expected to be in the city of commerce between America and Switzerland was in good health.

BURLINGTON AND ALTON OFFICIALS

Were Here Friday to Discuss East State Street Subway Proposition—Matter to Come Before Council at Next Meeting.

Mayor John B. Davis and Charles W. Brown, formerly city engineer, were in Chicago this week to interview the Chicago & Alton and Burlington officials in regard to the subway proposed by residents of the east end of the city. Mr. Brown has been working on the proposed improvement at the instance of the property owners, and only recently submitted his plans, as mentioned in the Journal a few days since.

The committee interviewed General Manager Goodnow of the Alton, and he spoke very favorably of the plan, provided the railroad would not have to maintain a grade crossing. In such an event, the railroad would fight the plan to the last ditch. He also suggested that he would not be in favor of the plan, provided it was simply a scheme of the interurban people to secure free passage under the railroad tracks. He felt that if the interurban company desires a crossing there, they should be compelled to pay their part toward the improvement.

Mr. Goodnow further stated that work on the freight depot to be erected on East College avenue would be rapidly pushed, and gave orders to his chief engineer to this effect in the presence of the committee. He also expressed the desire of his company to erect a new passenger station here, and make other needed improvements. A union station, he said, was what the Alton people desired, but the other roads cannot agree to their propositions along this line, on account of the lack of funds and other reasons.

Chief Engineer Breckenridge, of the Burlington, was also seen, and was asked what the effect of the subway would be upon their plans, provided they intended to change their line to run between the car barns and the Passavant hospital. He replied that the subway would have no effect whatever upon their plans as they have no intention of taking such a course; that they have not the right of way, and that even if they did desire to go this route it would be well nigh impracticable.

The residents of the east end of the city are enthusiastic about this enterprise and intend to push it. The present intention is to lay the matter before the council at the next meeting.

WOMAN'S CLUB MEETING.

The Woman's club will hold its regular March meeting to day at 3 p. m. in the chapel of the Woman's college. It has been arranged to have the meeting postponed from February to March 24, and Mr. Moulton, chairman of the state civil service commission will speak at that time.

The regular program for the afternoon will therefore be carried out. Some of the interesting points in Illinois history, a topic chosen for special study by the Illinois Federation of Women's clubs this year, will be presented by Mrs. Paul Selby, of Chicago, and musical numbers will be given by Miss Ruth Widenham and Miss Long. An announcement of the plans for the bazaar which the club is to hold in April for the benefit of the kindergarten will be made. Members are reminded that club tickets are to be presented at the door and if they have not already paid the half year dues made necessary by the changing of the annual meeting from January to May they should be paid at this meeting.

SAVE YOUR HEALTH

It Is Worth Saving and Some Jacksonville People Know How to Save It.

There are some people who take their lives in their hands by continuing to neglect their kidneys, when they know these organs need help.

Sick kidneys are responsible for an immense amount of suffering and ill health, but there is no need to suffer or to remain in danger when all diseases and sufferings arising from sick kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

Here is the statement of one Jacksonville person who has reclaimed good health by the use of this remedy:

A. H. Coffman, of West Morgan street, dealer in second hand furniture and stoves, says: "Across my loins just over these organs there was a heavy aching pain. I could not rest long, either sitting or lying, and in the morning I always felt more tired and depressed than when I went to bed. The pains became more persistent and the kidney secretions were highly colored and irregular. In fact, my general health was run down. I tried different medicines, but remained the same. Seeing Doan's Kidney Pills highly recommended, I got a box at Dr. H. Lee Hatch's drug store and used them. They worked like a charm, giving a healthy and natural action to the kidneys and relieved my back of distressing aches and pains."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name DOAN'S and take no other.

ILLINOIS NEWS ITEMS

First Prosecution Under Divorce Law—Yates at Decatur—Emigrants From Greene—Small Boy Traveled—Other News.

TESTING STATE LAW.

Peoria—What is probably the first prosecution in the state under the provisions of the new divorce law was begun in the court of Justice Greene when Mrs. Franz Ratski, formerly Mrs. Charles Hutt, was arraigned on the charge of having remarried within one year after her decree of divorce was granted.

At the September term of the circuit court of Peoria county, Mrs. Kate Hutt was divorced from Charles Hutt on the grounds of habitual drunkenness and cruelty. Under the provisions of the new law she could not remarry again within one year, but on Feb. 1, 1906, she and Franz Ratski went to Davenport, Iowa, and at the other end of the bridge just across from the Illinois state line they were duly married. They returned here to live. Her case was continued until the 15th inst., and she gave bonds in the sum of \$500. The complaint against her was sworn out by Charles Hutt, her former husband.

It is claimed that under the state law a marriage in another state is a violation of the provisions of the Illinois law in the event that the parties return to the same state after their marriage, and the penalty there for is imprisonment in the penitentiary for a term of not less than one year nor more than five.

YATES AT DECATUR.

Decatur—An audience of 1,000 people gathered in the tabernacle and listened to an interesting speech on "Federal Machine" by former Governor Richard Yates, who is at present busily engaged in a campaign for the United States senatorship. The machine and its workings were portrayed by the speaker to the evident delight of the audience, which was enthusiastic throughout the meeting. Mr. Yates arrived in the city during the afternoon and a reception was held at the Decatur hotel where about one hundred called and paid their respects. Mr. Yates left at midnight for Chicago, and left there for Marengo, Freeport and Belvidere, where he speaks.

EMIGRATE FROM GREENE.

Roodhouse—One evening this week the following from Athensville and other Greene county points constituted a party taking the train at Roodhouse for Bridgeport, Douglas county, Washington, to make their home. Age and youth were alike represented: Freeland Slyter, aged 84 years; Mrs. Jane Slyter, aged 80 years; George Slyter, 29; William Wells, 25; Mrs. Fannie Wells, 20; Ernest Varble, 23; Mrs. Jessie Varble, 20; D. B. Slyter, 50; Mrs. Ella Slyter, 43; also the two children of Mr. and Mrs. William Wells and one child of Mr. and Mrs. Varble, mentioned above.

VIRGINIA FIRM MOVES.

Virginia—Ted and Preston Koss, the well known east side jewelers, will about the 15th of this month, remove their jewelry store to Independence, Kans., a thriving city of over 12,000 population, where they will open with an entire new stock. Their brother Harry will accompany them and clerk in their new store. They decided upon this move because they consider that their business has grown to that extent which warrants its operation in a larger and more promising field, and the conditions under which they will begin in their new location are promising of the success of which they are well deserved.

SMALL BOY TRAVELS.

Roodhouse—Johnny Buck, a six year old boy living in Jacksonville, started to school this morning, but before arriving there decided to make a trip to Roodhouse, which he did, arriving here on the 10 o'clock train. He went immediately to the home of J. W. Hicks where he visited a few weeks ago. Mr. Hicks at once telephoned to the boy's mother who was greatly surprised to learn that her little son was in Roodhouse instead of at school. He will remain here until Saturday.

MORE QUAIL.

Virginia—State Game Warden J. A. Wheeler sent thirty quail to J. A. Tribwasser this week. Mr. Tribwasser gave six to Frank Quigg, four to Loren Thompson and four to Henry Savage, retaining the balance for himself. They will be liberated on the farms of the above gentlemen.

CHAMBERLAIN'S COUGH REMEDY A FAVORITE.

"We prefer Chamberlain's Cough Remedy to any other for our children," says Mr. L. J. Woodbury, of Twining, Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by all leading druggists.

WATER FOUNTAINS.

Water fountains have been placed by the Jacksonville Water Co. in the Duval and Pacific hotels, the Knolberg-Dresser Cigar store and in the Avers National bank.

PEACE IN URUGUAY.

Montevideo, Uruguay, March 8.—Peace continues to reign throughout the republic. A number of additional arrests have been made, but the revolutionary movement has completely collapsed.

FARMERS ARE INTERESTED

In Good Roads Movement—Dragging System Meets With Favor—Highway Leagues Being Formed.

Farmers throughout the state have taken up the cause of highway reform and local leagues are in process of formation under the direction of the Illinois highway commission, created at the last session of the general assembly, says the Springfield Register. One league has been formed at Whitehall and a meeting will be held March 16 at Galva to launch another branch.

Rural property owners were at first inclined to look with suspicion upon the commission as a new-fangled thing that would increase taxes without producing results of direct benefit to the citizens. This feeling has disappeared to a large extent for the reason that the commission has developed a way to improve country roads without great expense.

The method adopted is the dragging system, used with success in Iowa, and on the almost bottomless mud roads of Missouri. When the farmers are organized into local groups co-operative work on the roads will begin.

Heavy pieces of timber, one side made flat, will be dragged over the roads when they are soft. The timber will be drawn at an angle that will grade the roads and make a crown in the center. This will cause water to run off rapidly, and will fill up depressions. When this process has been used for a year, even mud roads are found to be improved greatly, and where the work is done carefully and frequently a mud road resembles a good gravel pike.

The earth roads are to be temporary affairs, and are to give immediate relief. As time passes the commission expects to build macadam highways that will last for ages and make all roads available for automobiles.

Crushed rock for the roadway now is being supplied by the convicts at Chester. All the product has been tack and plans are now under way to use more of the state prisoners in this work.

Bridge work is being assisted by the commission, and its usefulness is demonstrated to farmers by estimates and plans for bridges which enable them to know when the contractors are charging too much for work.

Sample macadam roads will be constructed near the University of Illinois and Springfield.

The members of the commission are Dr. Edmund J. James, Joseph Finkelson, Lafayette Funk and A. N. Johnson, as engineer.

SERVICES AT ANTIOCH.

Sunday school at 10 a. m.; services at 11 a. m. and 7 p. m., subject in the morning, "The Living Word." Because of the bad roads last Sunday many were not able to be present, but the offering for foreign missions was very good. If all will take a part in this work we will be able to reach the appointment without difficulty. Let each one be interested in this work and either bring or send an offering within the next few days.

Beds and Bedding Reduced 20 Per Cent.

In harmony with the general pricings during our great March sales, our entire line of beds, springs and mattresses is now being sold at a reduction of 20 per cent from our regular marked prices. The assortments recently have been augmented and comprehensive lines of the following are shown.

WOOD BEDS, IRON BEDS, FOLDING BEDS.

REVERSIBLE, COTTON TOP and FELT MATTRESSES.

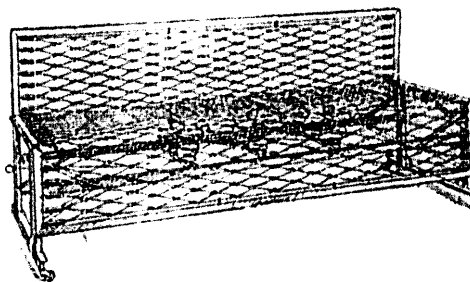

Also a good assortment of SPRINGS in various styles.

COUCH.

BED.

DAVENPORT.

Sanitary Couches.

In point of convenience and hygienic qualities nothing in the couch line excels the Sanitary Couch.

We show them in two styles, that may be converted into any of the three shapes shown in the illustration. The sales on these couches at our regular prices have been very heavy, but at our March sale reductions of 20 per cent, our business should be doubled.

\$4.50 Couches reduced to \$3.60

\$6.50 Couches reduced to \$5.20

Our regular \$3.50 Pads, or Mattresses for these couches are now being sold at \$2.80

In the drapery department on the second floor is shown a score of styles in handsome couch covers, priced in accordance with the "March sale" spirit.

Wall Paper. 2d floor

Over 200 new designs are shown in this section. Competent paper hangers are supplied if desired. You are urged to visit this department before buying wall coverings.

SOUTH SIDE CIRCLE.

The South Side circle met Friday afternoon with Mrs. J. W. Lane on North Church street. A very comprehensive discussion of "Everyday Life of the Belgian People" was led by Miss Beccart, assisted by Mrs. Robertson.

The reading of a letter from Mrs. Lane, a former member, now of Los Angeles, Cal., by Mrs. W. E. Hall was much enjoyed by the members. The roll call was responded to by "Early Recollections." Some were very amusing and provoked peals of laughter from the members. Taken as a whole the meeting was perhaps the most spicy of the season.

The next meeting will be held with Mrs. Lang.

NEW ADDITION PLATTED.

A plat of Jones' sub division of Dunlap's addition to the city of Jacksonville was placed on record in the office of the circuit clerk Friday afternoon. The plat comprises fifty-six lots, which lay as follows: twenty facing on Jones place, eighteen on Parnassus place, thirteen on Mound avenue and five on West College avenue. This is the piece of land known as the Potts farm.

WALL PAPER CHEAP.

Tuesday and Saturday until further notice W. G. Benson will make special prices on wall paper of handsome designs and patterns. Mr. Benson's stock comprises some of the finest and best goods in the market and any person having one or more rooms to paper will save money and be suited by availing themselves of this fine opportunity.

REAL ESTATE TRANSFERS.

A FAVORITE REMEDY FOR BABIES.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by all leading druggists.

NEW COMMISSION HOUSE.

A new office has been opened in this city over Price's jewelry store, 218 1/2 East State street, by W. J. Weidenbach, formerly connected with G. A. Smith & Co. of St. Louis. The house will conduct a brokerage in stocks, cotton, grain and provisions. It is correspondent of Moorehead & Co., Inc., of Cincinnati, and is supplied with direct service and quick private wire. Mr. Weidenbach is a pleasant gentleman and seems fully to understand his business and will no doubt prove popular with the people of the city.

PUBLIC LIBRARY.

The children's story hour will be held Saturday afternoon at 3 o'clock. All children between 6 and 12 years of age are invited.

PUBLIC ANNOUNCEMENT.

The Mendelssohn club of Jacksonville takes pleasure in the announcement of their annual concert and May festival which will take place on the second and third of May next. The list of artists and soloists will be announced later. All friends and patrons are kindly requested to remember the May festival and assist in keeping these dates open for the public.

HOME GROWN LEMON.

W. A. Mason, one of the rural mail carriers, left at the Journal office yesterday a remarkable sample of a home grown lemon, the product of his wife's horticultural skill. There were four on the little tree and this one broke the bough on which it grew. It weighed over thirteen ounces.

PREACHED WITH POWER

DR. CONOLEY STIRRED LARGE TABERNACLE AUDIENCE

With His Eloquence and Logic—Twenty Gave Their Names for Church Membership—Temperance Meeting Sunday—Merchants Asked to Close Tuesday for Two Hours.

Fifteen minutes before time for the meeting at the tabernacle to begin every seat was occupied. The head usher, Mr. Ensley Moore, pronounced it the largest crowd of any week night yet.

It was announced that Saturday afternoon at 3 o'clock there would be a children's meeting. Sunday afternoon at 3 o'clock there will be a temperance meeting.

Tuesday afternoon at 1 o'clock will be a big rally. The committee appointed to interview the business men reports that almost unanimously the business men have consented to close their places of business from 1 until 3 o'clock on Tuesday next, bankers wish it to be stated that they too would close at that time if the law would allow.

Dr. Culpepper, who preached the sermon of the evening, stated that he was going to appeal not to the emotions but to the intellect.

"What shall it profit a man if he gain the whole world and lose his own soul?" was the text. The value of the soul was the theme and the first of the sermon is about as follows:

"As the eye is adapted to the light, as the ear drum argues its way to the sound and the sound back to the ear drum, so the soul of man is adapted to religious worship. God made us to be religious.

"The abnormal life is the one which goes around blundering in selfishness and sin. A good man will feel at home in heaven.

"The soul like the body has many members, imagination, understanding, judgment, will, memory, conscience.

"The imagination or the image room is where a thought is born. It is here that the devil gets in his dirtiest work. Let God decorate the image room so that thought born there shall be right.

"The understanding is the window. It should be kept open. It is a rare thing to be listened to with undivided attention. We try to misunderstand. A man will skip the plain truths of the Bible and puzzle himself to discover where 'Melsa-Chissel-deck' came from. If a man will stop guessing it will clear up the atmosphere a little for him to see further.

"The judgment is the throne. Come let us reason together. A hand without a Sabbath or a land where the Sabbath is kept? Would you not sell your property in Jacksonville at ten cents on the dollar if all the churches and ministers were removed?

"The will is king of all other faculties. If I sin it is my sin, I willed it. If I pray it is my prayer; I willed it. I came here tonight because I willed it. My lips could shape a curse or a prayer as I willed it. You are a responsible person. You cuss because you are a vile mouthed man, not because you can't help it. All the sermons and prayers, the Bible and every good book is to help you but you must will it if you would do good.

"The memory is the great store house from which we build. We are all copyists. Our very originality we develop through memory.

"The conscience is much understood. 'I follow my conscience' is often said. If a man is conscientious he is all right. This is wrong. If a man followed conscience he would go backward. Conscience says the Bible excuses and accuses. It does not act until after the deed. Conscience tells one man one thing and another man differently. It is unreliable. You must get some other element into salvation than conscience. It stands to reason that when the other faculties of the soul are fallen that conscience would be fallen also.

"I would point men and women to the word of God. There is not a single dogma of science which is twenty-five years old that is not implied in the Bible. My heart desires to help every man love the Bible.

At the close of the sermon Dr. Culpepper related with telling effect an incident of a great revival at Black Swamp camp meeting.

During the aftermeeting twenty persons gave their names for church membership.

George W. Robertson who has been employed as day operator for the Alton, left yesterday for his home in Carthage for a visit before taking a position with the Rock Island.

CAPTURE REVOLUTIONISTS. Kieft, Russia, March 9.—A cordon of troops to day surrounded a secret meeting of social revolutionists and captured seven men, two women and fifteen soldiers, among them being an officer. The soldiers were conveyed to the citadel and the others were taken to prison by the police.

RAILROAD NEWS NOTES

Alton and C. P. & St. L. Employees Hold "Fellowship Tea"—Burlington Officials—Personal Mention and Items of Interest.

There is one time on the Alton just now and everybody is playing it. There is a refrain which applies to coal cars and coal. The words and music if published might strike a musician as queer but there is plenty of action in both. The men in the shops hear it and both loaded and empty cars are sought earnestly and anxiously. The speedy repairing is urged and there is a relief if the demands are quickly complied with. The mines are calling for the cars and asking that those loaded be taken away. The company is loading 700 cars of commercial coal per day, and moving on an average of twenty-five trains per day. This amounts to a tremendous output of black diamonds and after the rush is all over some earnest statistician can attract attention by preparing some figures upon the movement.

For better work in all branches was the object of a meeting and "Fellowship tea" held at the C. P. & St. L. freight depot Friday evening. The employees of the C. P. & St. L. and Alton offices to the number of ten gathered at the C. P. & St. L. freight office after working hours. Friday evening and enjoyed a meeting and supper, the first of its kind ever held between the railroad forces in the city. The first thing on the program was an elegant supper, which had been prepared during the afternoon. This was spread on the tables, which the boys, after a hard afternoon's work, thoroughly enjoyed. The menu was a very elaborate one. At its conclusion O. B. White, the accommodating cashier of the C. P. & St. L., was selected as toastmaster and after a few brief remarks suitable for the occasion announced the speakers. Mr. Suydam, chief clerk, and Fred Battershell, bill clerk of the Alton, and L. E. Selby, agent for the C. P. & St. L., each spoke at some length.

Fred Battershell, the bill clerk for the Alton, in his speech told of the many difficulties in which a bill clerk was placed and gave his opinion as to how each man billing freight should do the work, so as to make rapid headway and at the same time do it correctly. Mr. Suydam gave an interesting talk. From a chief clerk's standpoint he gave his ideas as to how the men should join with each other in their work. Mr. Selby then pointed out many ways and means in which the employees should work in harmony with each other and especially the agent who at all times has a very trying and hard position to fill, so as to accomplish better results for the company by which they were employed.

James Mann, of Peoria, division freight agent for the Alton, was calling on local railroad men yesterday.

J. M. Gruber, general manager; H. D. Judson, general superintendent; Mr. Torrey, general superintendent of motive power; T. L. Smith, master mechanic, and C. W. Ling, division superintendent of the Burlington, passed through the city yesterday in their private car attached to the regular passenger train enroute to Centralia. Friday night was spent at Centralia and to day a thorough inspection of the new branch from Centralia to Herrin will be made.

George W. Dye, division passenger and freight agent for the Burlington, left last night for Chicago on a few days' business trip.

Jack Darnmont of Springfield was in the city yesterday and ran L. & M. engine 153, which has been in the car shops for a general overhauling back to Springfield.

G. M. Quackenbush, of Peoria, assistant general freight agent for the Alton, was a caller in the city yesterday.

O. J. Glaze who has been acting as agent at Illiopolis, Ill., for some time during the absence of the agent, John Hatfield, has returned to this city and taken the place as night operator at the Wabash.

The Golden State Limited which is due to arrive in this city at 4:59

"The Little Gray Lady," an American comedy at the Grand to night.

QUARANTINE RAISED. The quarantine at the State School for the Blind has been raised, and the school is now open again to visitors. Capt. Freeman has received many letters from parents of children at the institution, commending the manner in which the incident has been handled, and especially expressing appreciation of his thoughtfulness in sending out the three different circulars during the existence of the quarantine.

Rubber tires. Killian & Son.

ARCHITECT BADGLEY HERE. S. R. Badgley of Cleveland, Ohio, architect of the new Christian church, was a business visitor in the city Friday. He went over the structure carefully on an inspecting tour.

The date for the dedication of the new church has been set for the first part of May. The removal of the organ at the old church will begin in a week or ten days. The organ will be rebuilt by the original makers, of Boston, Mass., and will be equipped with an electric blower. The carpenter work on the building will be completed in about two weeks.

HIGHEST AVERAGE. The highest average made in the central examination at Lost Grove was that of Miss Eliza Dunlap, who made the high mark of 95 in eight branches.

**DELIGHTFUL
READING WAS**

GIVEN BY MRS. EDNA CHAFFEE NOBLE AT HOME OF MRS. KING.

Benefit Entertainment for Passavant Hospital—Browning's "Pippa Passes" Beautifully Interpreted—Reading Tonight at Woman's College.

Renewed interest in Browning and particularly in his "Pippa Passes" was aroused in everyone who was fortunate enough to hear Mrs. Edna Chaffee Noble at the home of Mrs. W. H. H. King Friday afternoon. Mrs. Noble is at the head of a well known and long established school of elocution in Detroit, Mich., and is here as a guest of Miss M. A. Greer, of Passavant hospital. The recital was given as a hospital benefit and Mrs. King graciously opened her home for the occasion. There was a large number present and Mrs. Noble spoke from a temporary platform so placed in the spacious living room that those in the hall, parlor, library and dining room had an opportunity of seeing as well as hearing the reader.

Miss Greer in a few well chosen words introduced Mrs. Noble, making reference to the close relationship that had existed between them as friends and as teacher and pupil and expressing her particular pleasure at being permitted to present Mrs. Noble to a Jacksonville audience.

It was evident to all the moment Mrs. Noble stepped upon the platform that a reader of fine talents was before the company and as the lines of this masterpiece of Browning's were interpreted it became apparent that a scholarly understanding of their meaning was behind the spoken word. Mrs. Noble is a woman of striking presence and her radiant face, strong features, silvery hair and becoming gown made her personality an object of admiration before her ability as a delineator of character was observed.

Her words of introduction evidenced her own sincerity and prepared the auditor for a clearer comprehension of the purpose the author had in mind when the poem was written and of the central idea that was behind the uttered thought.

Rare enunciation combining the qualities of distinctness and fluency enhanced the enjoyment of the reading. Mrs. Noble possesses an enthusiasm that is contagious and yet in her emotional passages she never permits her eagerness for expression to carry her beyond the bounds of grace and clearness and there is a charm about her manner that pleases and delights.

Her recital is difficult of description from the fact that personality is such a factor in a correct appreciation of this woman of talent. Anything Browningesque is usually associated with subtlety of conception, profound analysis and abstract speculation yet under the skillful rendition of this most popular of the great English poet's writings by Mrs. Noble nothing could be more simple or plain, the passages being given with enough of explanatory digression to add to rather than mar the interest of the reading of the poem. In her rendition of "Pippa Passes" Mrs. Noble voices the beautiful thought and sentiment of the author, exhibiting a clearness of idea and emphasis of expression that are rarely gained by the average reader. As Mrs. Noble stepped from the platform she was greeted with enthusiastic applause and at the request of Miss Greer read two other selections from Browning entitled "The Twins" and "The Ride from Ghent to Aix."

At the conclusion of the reading many remained and were presented to Mrs. Noble, whom it was a pleasure to meet.

At the Woman's college at 10 o'clock this morning Mrs. Noble will give a reading especially adapted for children and at the same place this evening at 8 o'clock she will again appear in recital. Both of these entertainments are for the benefit of Passavant hospital and the public are assured of aiding a worthy institution and hearing an excellent reader by lending their patronage.

INDUSTRIES WANTED. The Chicago & Northwestern railway is receiving information from desirable points on its lines that industries of various kinds are desired. The opening up of the spring season, with good prospects for a continuance of the large business of the past year, is causing many communities to make strong efforts to locate new industries. Among the establishments desired are iron and wood working concerns, cereal mills, canning works, cold storage plants and mills of various kinds, as well as mercantile establishments. Requests for particulars addressed to the Industrial Department of the C. & N. W. Ry., Chicago, will be promptly attended to.

George Gibson, of Pisgah, was a visitor in the city Friday for the first time since his recent indisposition. He was warmly greeted by his many friends here.

BEGIN TO USE OUR SHOES

It almost seems incredible the advances that have been made in the art of shoe making, from the primitive sandals to this season's latest models. When we stop to consider that so much depends on our feet and that two-thirds of our life is spent in our shoes, is it not important that we give them some consideration.

Hopper's pay particular attention to this very important consideration, every shoe has embodied in it some particular feature for comfort, they are selected for the particular needs of this community, they have merit, they are only from the most reliable houses. We make a particular study of your feet and make constant endeavors to satisfy your footwear wants to your entire satisfaction.

Trade where there is quantity, quality and price. That's Hopper's.

Children's Foot-Form Shaped Shoes

Put children's feet in those foot-form shaped shoes, where they have room to breathe and grow and in later years they will not have the troubles of their feet. A new arrival, the best assortment we ever offered. Ask to see them, button and lace.

Washington, March 9.—For Illinois: Fair Saturday, except snow flurries in north. Sunday fair.

THE JOLLY PATHFINDERS ALL NEXT WEEK

Rentfrow's big comedy company, The Jolly Pathfinders, will be the attraction at the Grand for one week starting Monday, March 12. The company this season is bigger and better than ever and Manager Rentfrow assures the amusement loving people that they will witness some of the best plays to be seen at popular prices. The company carries a special car load of scenery and each play during the week will be correctly staged. The company also carries their own band and orchestra and each day at noon a grand street parade will be given, as well as a concert in front of the theatre each evening from 7 to 7:30. Ladies' free ticket on Monday evening.

"The Little Gray Lady," an American comedy, at the Grand to night.

JUSTICE COURTS.

The case of Julius Antreter, charged with keeping his saloon open after hours, was again heard Friday afternoon before Judge Reid, and the verdict of the jury was guilty. A fine of \$25 and costs was assessed. The jury was composed of Timothy Flynn, Arthur Seegar, James Campbell, R. R. Stevenson, A. T. McCormick and Lambert Hastings.

Attorney Hargrove for the defendant gave notice that the case will be appealed to the circuit court.

DISTRICT CABINET MEETING.

There will be a district cabinet meeting of the Jacksonville district Epworth League this afternoon at 1:30 at Grace church.

FUNERALS

DANIELSON

The funeral of Mrs. Julia Danielson was conducted from the residence of E. W. Bassett on Pine street Friday afternoon at 2 o'clock, in charge of Rev. P. S. Hayden. The beautiful floral tributes were in charge of Mrs. Charles Smith, Mrs. Riley, Miss Welles and Miss Gates.

At the conclusion of the services the remains were taken to Diamond Grove cemetery for interment. The bearers were C. H. Ward, G. S. Gay, M. L. Robinson, W. A. Jenkinson, George Merrill and A. D. Fairbanks.

Blacksmithing, Kilian & Son.

KITTY LEAGUE NEWS.

Frank Belt, manager of the Jacksonville baseball team, expects to go to Centralia to attend the meeting of the schedule committee of the Kitty league which will fix the schedules for the coming season. M. J. Farmlaker, of Cairo, is chairman of the committee, and the call is to the three members of the committee and the officials of every club in the league. A prize of \$25 has been offered to the person submitting the schedule which is adopted by the league, and twelve have been sent in.

THE LITTLE GRAY LADY.

Manager Chatterton, of the Grand, telephoned the Journal last night after the performance of "The Little Gray Lady" in Springfield that the production was high class in every particular. The acting strength of the company was excellent and the scenic investiture very attractive. It is a play, says Manager Chatterton, that will appeal to the best element of theatre goers.

MERCHANTS ASKED TO CLOSE.

A committee was appointed at the Thursday evening meeting of the labor union to wait upon the merchants of the city and enlist their cooperation in the meeting to the extent of closing their places of business Tuesday afternoon at 1 o'clock and remaining closed until 4 o'clock, in order that all might attend the big meeting in the tabernacle. T. M. Tomlinson, W. E. Vetch and George Watson were appointed to call upon the business houses of the north half of the business section, and J. A. Obermeyer, J. W. Shirley and C. C. Capps to call upon those on the other side. The committee has been well received by the merchants, and the response has been very general.

Trimming, Kilian & Son.

DROWNED AT MEREDOSIA.

H. Cappelman, a jeweler of Aranzville, was drowned in Meredosia lake Tuesday. Cappelman and one or two other men had gone to the lake hunting and in getting into their boat it capsized and Mr. Cappelman was drowned. According to a report received last night, it was thought that one of his companions was also thrown into the water, but that he was able to get out. Mr. Cappelman was a jeweler and had been in business in Aranzville for the past three or four years.

WISCONSIN SOLDIER.

Stevens Point, Wis., March 9.—Captain McQuiggin, one of those who led the decisive assault on the Moro fortress, island of Jolo, is a Wisconsin soldier, whose home is in this city. He graduated from West Point in 1898 and since then has held responsible commands in the army service.

MISS ANTHONY'S CONDITION.

Rochester, N. Y., March 9.—Miss Susan B. Anthony's condition is improved to night. She is stronger than she was yesterday and has taken considerable nourishment. Her friends feel much more hopeful of her recovery.

NEW HEAD FOR LOCAL CAR SHOPS

M. D. Stewart Has Tendered His Resignation as Superintendent of Motive Power of C. P. & St. L. Road.

M. D. Stewart for two years past superintendent of motive power and equipment of the C. P. & St. L. railroad, with headquarters at the local shops in this city, has resigned his position but the announcement of his successor has not been made. Mr. Stewart was in St. Louis Thursday and Friday and his future plans could not be learned. It is understood that he has contemplated severing his connection with the road for some time to accept another position of a more attractive nature.

Mr. Stewart came to Jacksonville in September, 1904 and succeeded W. E. Killen as superintendent at the shops.

The latter resigned soon after J. P. Ramsey, Jr. became general manager of the C. P. & St. L. and Mr. Ramsey appointed Mr. Stewart to the position. He had been associated with Mr. Ramsey for eight years previous while the latter was connected with the Rio Grande, Sierra Madre & Pacific railroad. He was also for a number of years quarter master at Mare Island navy yard in California, and at one time was outside superintendent of the Bay City Iron works. He came to Jacksonville from El Paso, Texas.

Shortly after his coming Mr. Stewart brought his family here and they have made their residence in the Chambers property on West State street. The many friends of both Mr. and Mrs. Stewart would sincerely regret their leaving Jacksonville and it is to be hoped that their plans will permit of their remaining residents of this city.

Buggy painting, Kilian & Son.

VALUABLE STAKES.

Columbus, Ohio, March 9.—Stakes aggregating \$1,600 in value were offered to day by the Columbus Driving Park company for the next September grand circuit meeting.

The Hoster-Columbus \$1,000 stake, with consolation provision, is for 218 trotters. The Hotel Hartman \$500 event, with consolation, is for 215 pacers.

The \$3,000 Columbus purse is for 200 trotters, and the Count of Trade purse for 207 pacers is worth \$300.

Horseshoeing, Kilian & Son.

INDIANA WON.

Bloomington, Ind., March 9.—In the first of three debates composing the annual contest of the state universities' debating league, the team representing Indiana defeated Illinois university. Indiana argued in favor of federal control of life insurance.

MANY WORKMEN IDLE.

St. Louis, March 9.—A total of 5,000 workmen are now idle as a result of the action to day of the Stonemasons' and Setters' union, declaring a strike in sympathy with the bricklayers, who have been out several weeks.

RAISE POSTAL WEIGHT.

Berlin, March 9.—In the re-opening to day Postmaster General Von Kietzke remarked during the debate on postal estimates that Germany would propose that the international postal union raise the weight of simple letter postage to two-thirds of an ounce.
